## EXPERIENCE

### Internship

Web Development | Tech Access Learning Pvt Ltd. | 17th June 2022 – 12th August 2022

## PROJECTS

### Chat App | HTML5, CSS, JS, PHP

The Chat App is a web-based application. In this system, the user can review the chatting system. In this system, the owner can make their account online and have good conversation in the chat.

It is the server that uses localhost to host the website. This Xamp server is initially working on PHP now it is capable of running through SQL commands. By writing the query in my SQL, we can host the server through localhost and then connect that server to our website.

### Custom CSS | HTML5, CSS, Bootstrap

Custom CSS items refer to the specific elements of a webpage that can be styled using custom CSS code. I make a few custom CSS items that can be styled on a webpage like a login page (Facebook, Twitter), Color Dropdown Menu, and Product Card, I Design of iPhone with custom CSS, and the possibilities are nearly endless for customizing the look and feel of a website.

### E-Commerce | HTML5, CSS, JS, Bootstrap

It is part of your site that shoppers interact with directly and includes features like fonts, colours, drop-down menus, image sliders, shopping carts, search bars, and product detail pages.

### Portfolio | HTML5, CSS

In my Portfolio which describes me like skills, projects, services, about me etc.
